MORE THAN 50 YEARS IN HONEY

About Us

50+

YEARS OF KASHMIR ROOTS

Honey has been part of our family in Kashmir for more than half a century.

We grew up knowing that every forest has its own flowers, its own season and its own flavour.

That connection guides JK Junglee Honey today. We bring distinctive honeys to hotels, restaurants, shops and business partners.

From our family to your table, every jar carries a story worth sharing.

Rooted in nature. Shared with care.

FROM A PROMISE TO A PURPOSE

Founder's Message

“My father gave me values.
Nature gave me purpose.
Together, they became
JK Junglee Honey.”

Sabir Khan

Founder, JK Junglee Honey

My journey with honey began long before JK Junglee Honey became a brand. It began with my father.

I grew up watching him work with honesty and dedication, building relationships that were stronger than contracts. He taught me that honey is not just a product - it is nature's blessing, and our responsibility is to keep it pure.

When he passed away, I didn't want his legacy to end with him. I wanted it to grow.

JK Junglee Honey is my way of honoring his values while creating a brand that meets today's highest standards of quality, purity, and transparency.

Every jar we produce carries that promise forward - a promise to our customers, our partners, and to the bees and forests that make it all possible.

Thank you for being a part of our journey.
